

God can make great things out of bad; most of the time,
even better than we ever imagined.

A Word from Captain Henley

When The Bite Is ON

As all fishermen know, when the bite is on, ITS ON!
As all outdoors men know, when the bug bite is on, ITS ON!

When I was asked to write this article, the first thought was a comment made by my history teacher in High School. When ask how long a paper to be written was to be, his statement was "make it like a mini skirt, long enough to cover the subject yet short enough to keep it interesting." I will try to follow his advice here. Mrs. Barbara ask me to write this article regarding the relationship between Bugs and Bug Stuff and environment. First of all, bugs do not like Bug Stuff. Bug Stuff is a formula of all "natural" and "organic" ingredients. The formula is proprietary to H2Outings, LLC, the owner of Bug Stuff.

HOW DID IT START? Bug Stuff started as a concept and progressed to research by Mike Williams and myself. My goal was to formulate an insect repellent that truly repelled and not have chemicals such as "Deet" that kill insects and damage the environment (such as the fishery, wildlife and humans), I particularly did not want to kill the bees as they are a major factor for food supply. HOW WAS IT DEVELOPED? Bug Stuff was developed by studying the most economic prosperous countries' number one natural and organic ingredients for insect relents. Then the ingredients were formulated for best results, creating a repellent, safe for humans, children and small animals. To follow the hypothesis, it had to be food grade. The original formula was then turned over to our chemist for tweaking and then on to field testing throughout the US and abroad. Next came the licensing and governmental approvals, (CDC, EPA, EPD, FDA, FI. Dept. of Agriculture, etc).

PRODUCTION and DISRIBUTION? Currently Bug Stuff can be produced at a rate of 270 bottles an hour by running several stir tanks and bottling machines. It is distributed using several carriers throughout the US and

abroad. As approved for us, August 12, 2020, FDA approved an ingredient to repel ticks and ants. Bug Stuff is the only natural and organic repellent to contain this ingredient made in the US.

Remember, the next time you want to repel an insect, please do not damage our fishery, our hunting grounds, our bees, our children or our pets. My thanks for your time in this regard and please support our Captains at River Inn and Marina. They do it RIGHT! Tight lines to all and be safe.

TIM, JIM AND ARCHIE
WITH SOME NICE TROUT
AND REDS AND A BLACK
DRUM WITH CAPTAIN MATTOX

These Fellas, Tim, Jim and Archie had an active day catching fish with Captain Mattox- Florida Flats and Bay Charters (352)682-0645
Blue Skies and Tight Lines all Day

Walt stayed busy this weekend at the fish cleaning station.

Colton and Captain Julius very

Congratulations Colton winning 2nd place in the Fishing for Vision tournament.

Dustin had an exciting day fishing for vision; he was accompanied by good friend Colton and fished with Captain "J".
Book your family with Captain J Charters 352-745-0968

proud and wonderful day.
Great start to the summer.

Sarah Beth fished with Captain Mike Baker Charters on Mothers Day. Her husband dropped her off and the kids were in car seats waving bye to Mama. Much better way to bring supper home than shopping at Walmart! #fishingmama

Shark was set free to do what sharks do....
Call Captain Mike Baker, you're gonna have a great time catching fish!
